88 aleksnadr volkov on reagan admin's cooperation with racist regime in pretoria ignoring protests of world community and resolutions of unga, incl cooperation in nuclear field. american policy is full of contradictions. american laws prohibit export of nuclear fuel to south africa, howefer its shipment to racists goes on unhampered. african group at current unga session had plenty of reason to resolutely denounce u.s. coop with south african racist regime in nuclear field. doesn't white house policy run counter to treaty on nonproliferation of nuclear weapons which among others bears signature of usa?
